29. 1977 Corvette Stingray

Many police agencies use distinctive vehicles for public relations, crowd control, and drug enforcement. One such vehicle is the 1977 Chevrolet Corvette Stingray, pictured above. This attention-grabbing sport car has been used by the Jackson, Michigan, Police Department. The car is equipped with a 350 cubic inch V8 engine, providing 265 to 345 horsepower, depending on engine configuration.

Many of the expensive high-performance vehicles used by police agencies are acquired by confiscation when a drug dealer is arrested using the vehicle.
